

Obligation to wear masks from 27.04.2020

**You must wear a protective mask in all shops and
in the bus and train**

Instructions for wearing protective masks

- Even with a mask, keep the safety distance of at least 1.5 meters to other people.
- When putting on a mask, do not touch the inside. The hands must be thoroughly washed with soap before touching the mask.
- The mask must cover the mouth, nose and cheeks and be tight at the edges to allow little air to enter.
- A damp mask must be removed and replaced immediately.
- The outside of the used mask should not be touched.
- After putting off the mask, you must wash your hands thoroughly (at least 20-30 seconds) with soap.
- After putting off the mask, it should be either stored in an airtight container or washed immediately.
- Masks should be washed with at least 60 degrees Celsius after a single use and then dried completely.

Simple instructions:

You need: 1 cloth (table cloth) and 2 household rubbers
